Summary

I'm a passionate frontend developer with a strong foundation in HTML, CSS, and JavaScript, and growing experience in React. I enjoy building responsive, user-friendly web applications and continuously learning new technologies. I'm currently focused on improving my full-stack development skills. I'm passionate about creating responsive and accessible user interfaces with clean code and great attention to detail. I've built several personal projects and enjoy turning UI designs into functional websites. I'm currently expanding my skills in backend development to become a full-stack developer.
